16. RAINPIPE Ø90 PIPE BRACKET ADAPTER L120, L160

ADVANTAGES

MATERIAL PMMA / ASA

Gutter system PRIME Series is produced by using innovative material, combination of traditional PVC and acrylic.

HIGH RESISTANCE

All components of PRIME Series are particularly distinguished by excellent resistance to aggressive atmospheric conditions.

COLOR UNDER CONTROL

The improved production formula, provides substantial protection against UV radiation, which contributes to the retention of the original color.

QUICK AND EASY INSTALLATION

The “single click” assemble system, allows quick and easy installation process. Follow the instruction manual, where you will find a detailed discription on all steps.

TRADITIONAL GUTTER PROFILE

PRIME Series combines the advantages of te modern polymer and traditional gutter form. The typical profile with reinforced front makes the gutter more stable and prevents it from twisting. The smooth inner surface provides for the excellent drainage capacity.

12 YEARS LIMITED WARRANTY

PRIME Series comes with 12 years limited warranty. The warranty is applied in accordance to the warranty conditions and installation manual.

VINYL SOFFIT

APPLICATION

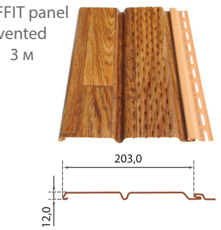

System SOFFIT provides durable finish and aesthetically appealing solution for roof eaves. Designed for lining of roof eaves, it provides the needed ventilation and prevents rotting and decay caused by moisture buildup.

WHY DEVOREX SOFFIT?

- ✓ Quick and easy installation
